

HARRINGTON

A KITO GROUP COMPANY

TIGER TRACK Jib and Gantry Cranes

Working Harder For You

In 1876, Edwin Harrington dramatically improved the self-sustaining hoist by introducing the worm-gear design. Since then, the company he founded has earned a proud reputation for product innovations and consistent quality that our customers count on to meet their diverse requirements.

Over the years, we have developed and grown by recognizing the value of our customers and responding to your needs. The daily mission of our organization is to provide you, the customer, with the highest quality in our products, service and support.

In addition to our superior products and expanded facilities, we offer a Sales and Customer Service team that is dedicated to serving you, a well qualified Engineering Department to support your technical needs and a full support staff who all know the importance of working together to provide solutions for your material handling projects.

We are working harder to be the supplier-of-choice for all of your hoist and crane applications.

Light-Duty Base Plate Mounted Jib Cranes

- Used for light assembly, welding or low use applications
- Capacities 1/8 to 1 Ton with spans up to 16' and height up to 14' under boom
- 360° rotation
- Mast (consisting of pipe, base plate and gusset plates), head and boom included
- Base plate is welded to mast
- No stress on building wall or columns
- Allows for maximum hook travel
- Removable and maintenance-free, cam-style roller bearings with bearing cover

*For other models, capacities, spans, heights consult Customer Service.
Dimensions are subject to change without notice.

Specify Capacity and Span with Model Number when ordering.

Maximum Capacity (Tons)	Maximum Span (ft)	Mounting Area (Sq. ft.)
1/8	16	6 x 6
1/4	16	6 x 6
1/2	16	6 x 6
1	10	6 x 6

Refer to chart for maximum span and capacity for foundationless cranes.

Light Duty Foundationless Jib Cranes must meet the following requirements:

- Existing concrete to be minimum 6" thick reinforced, 3000 psi, with a soil content of 3,000 psf.
- Concrete in and around mounting site must be consistent and free of any cracks or wearing within a 6'x6' area.
- Customer is responsible for determining adequacy of the existing concrete floor prior to mounting.
- If mounting requirements are not met refer to manufacturers recommended foundation print.
- Anchors must have a minimum 4-3/4" embedment.
- Anchor must have a minimum of two threads above nut after installation.
- Spread mechanical grout under base plate for plumbing of mast.
- Installer responsible for providing proper anchors for install, based on diameter and jib crane reactions.
- Jib mounting site must be free of any cracks, joints, seams or walls within a 6'x6' mounting area.
- Approval signature required for foundationless jib crane purchase.
- Jib anchors must be inspected once a month for proper tension.

Heavy-Duty Pillar Base Mounted Jib Cranes

- Capacities 1/8 to 15 Ton with spans up to 40' and height under boom up to 40'
- Available in pillar base plate mounted, foundation mounted, pillar sleeve mounted and foundationless mounted
- 360° rotation
- Mast (consisting of pipe, base plate and gusset plates), head and boom included
- Head assembly equipped with heavy-duty reinforcing side plates
- Standard bolt-on trolley end stops
- Equipped with heavy-duty thrust bearing and pressure fitted housing in boom for longer life and effortless rotation
- All capacities equipped with roller cage assembly with boom tip height adjustment

Specify Capacity and Span with Model Number when ordering.

Motorized Jib Crane Standard Features

- VFD control standard on all motorized jib cranes
- All motorized are standard with 'c' track flat cable festooning
- All motorized cranes are chain driven
- Gear motor is tucked away neatly under the jib head assembly
- Standard Motorized crane package includes: Drive motor with reducer, NEMA 4 panel, collector assembly and flat cable festooning
- Outdoor packages available
- For models, capacities, spans and heights consult Customer Service

Standard Tiger Track Panels Include:

- NEMA 4 gasketed panel is standard
- Through-the-door disconnect
- Mainline contactor
- System protection
- Motor thermal overload protection
- PE VFD unit for VFD control jibs
- High/Low voltage terminal strip
- 115V control

Wall Bracket Tie Rod Jib Cranes

- Mounting on a column or wall of adequate strength
- 180 degree + rotation
- Heavy-duty fittings made with roller bearings and zerk fitting for easy field lubrication
- Less beam deflection
- Smaller beam size
- Easy to rotate in larger applications
- Capacities 1/4 to 12 Ton
- Up to 35' span on tie rod style
- Motorized rotation available

Specify Capacity and Span with Model Number when ordering.

Wall Bracket Cantilever Jib Cranes

- Mounting on a column or wall of adequate strength
- 180 degree + rotation
- Heavy-duty fittings made with roller bearings and zerk fitting for easy field lubrication
- Designed for maximum headroom
- Capacities 1/4 to 12 Ton
- Up to 30' span for cantilever style
- Motorized rotation available

Mast Type Jib Cranes Full Cantilever or Drop Cantilever

- Full Cantilever allows for maximum amount of lift
- Drop Cantilever allows for specific boom placement
- 360 degree rotation
- No foundation required
- Perfect solution for overhead crane work cell handling
- Easy rotation even on heavy loads
- Low force exertion on supporting structure
- Maximizes trolley travel

Portable Rigid Gantry Cranes

- Convenient economical solution when portability is required
- Great solution when pouring a foundation is not possible
- Fixed style
- Aluminum or Steel construction
- Fixed height gantry legs are typically made with heavy wall steel pipe
- Continuous channel bases standard for greater stability and less flex

For other models, capacities, spans, heights consult Customer Service.

Dimensions are based on steel construction. Consult Customer Service for aluminum dimensions.

Dimensions are subject to change without notice.

Specify Capacity and Span with Model Number when ordering.

Portable Adjustable Gantry Cranes

- Convenient economical solution when portability is required
- Great solution when pouring a foundation is not possible
- Adjustable style
- Aluminum or Steel construction
- Adjustable height gantry legs are typically made with heavy wall square tube
- Continuous channel bases standard for greater stability and less flex
- Available with ratchet lever hoist adjustability using the LB lever hoists

Specify Capacity and Span with Model Number when ordering.

Compliance

Harrington's jib and gantry cranes are produced to comply with the following:

- OSHA specification 1910.179 as they apply to jib cranes and overhead cranes.
- CMAA specification No. 74 as they apply to jib cranes and overhead cranes.
- ANSI specification B30.11 as they apply to jib cranes and overhead cranes.
- All welding is done in accordance with AWS D14.1 by certified welders
- All designs meet AISC standards as they pertain to jibs and overhead cranes.

Complete Product Offering

Over the years, Harrington has continued to respond to the needs of our customers by further expanding our product offerings. In addition to the many models described in this catalog, our full series of product catalogs, as shown below, will provide you with all of the information you will need to answer questions, specify a product and place an order. For catalog copies or answers to specific product questions, please contact our Customer Service Department by calling 800-233-3010 or e-mail customerservice@harringtonhoists.com

Manual Hoist Products Catalog

Refer to this Harrington catalog for detailed information on the following:

- Lever hoists
- Hand chain hoists
- Hoist and trolley combinations
- Low headroom trolley hoists
- Push and geared trolleys
- Hoist load testers

Electric Chain Hoists Catalog

Refer to this Harrington catalog for detailed information on the following:

- Three phase electric hoists and trolleys
- Single phase electric hoists and trolleys
- Ergonomic electric hoists

Air Powered Hoists Catalog

Refer to this Harrington catalog for detailed information on the following:

- Compact Mini-Cat with pendant, cord and manipulator controls
- Air hoists with pendant and cord controls
- Air trolleys

Electric Wire Rope Hoists Catalog

Refer to this Harrington catalog for detailed information on the following:

- Deck/base mounted or lug suspended hoists
- Standard headroom trolley hoists
- Ultra-low headroom trolley hoists

Complete Cranes Catalog

Refer to this Harrington catalog for detailed information on the following:

- Heavy-duty Class C single girder top running and underhung cranes
- Heavy-duty Class C double girder top running and underhung cranes
- Medium-duty top running and underhung push cranes
- Crane control panels

Crane Components Catalog

Refer to this Harrington catalog for detailed information on the following:

- End trucks-top running-motorized, geared and push
- End trucks-underhung-motorized, geared and push
- Double girder MAX-E-Lift end trucks
- Convertible push end trucks
- Beam accessory kits
